

DIY SCRUNCHIES

Materials

- Fabric
- Elastic
- Sewing Machine/Needle & Thread
- Safety Pins (1-2)
- Ruler

Directions:

- Start by taking your fabric and cutting it into a rectangle.
- Length: 15 inches
- Width: 2.5 - 3 inches

- Cut the piece of elastic into a piece that is 6 - 7 inches long

- Fold the fabric so that the pretty side is on the inside.
- Sew it closed along the long edge

- Turn it inside out - I did this by pinning a safety pin to one side and pushing it through the fabric until it was right side out

- Pin the elastic to the fabric on one end
- Put a safety pin on the other end and pull it through, so the elastic pokes out on both sides

- Sew the two elastic pieces together
- Here is how it should look:

- Tuck the fabric underneath the other side and sew it closed

- And you are done!
